# WE ARE GREEN

Crearreda has always stood out for its focus on a low environmental impact products .  
We asked our Production Department to make an extra effort: the use of totally **recyclable materials** or materials coming from recycled products.

From the first days of **2023**, **80%** of **Technical** production will be carried out exclusively **with sustainable, recyclable materials** deriving in part **from recycled material**.

We assure that their quality will not be affected and keep the **same safety certifications as before**.

Our goal is making a **100% Green, PVC free** catalogue within 2025 .

This strong change will be already visible from next year. The **packaging** will remain, as always, **100% recyclable** and **easy to divide** material by material.

To make evident in greater detail the categories of products that already use **ecological materials**, we highlight them on the packaging and on the catalogue at the beginning of the chapter with the **following stamp**.

# TECHNICAL COATING & FURNISHING ACCESSORIES

---

Discover a **unique collection** that is the result of the work done by the **creative team** at **Crearreda** and merge as a statement beyond **trends**.

Appealing to the most discerning tastes, we created pieces that do more than enhance decor: they transform it into a **work of art**. We offer **innovative, easy to use** and **eco-friendly products** blending **design and functionality**, classical inspiration with new bright colors, textures and shapes with materials and technological methods.

A **unique assortment of products** with original functions such as **vinyl rugs, backsplashes, headboards** and **much more**. These kinds of accents give interiors an appealing and unique touch and can turn **your home** into something **extraordinary contemporary**.

A lot of people have been wondering how they could decorate their own home for the coming year. We at Crearreda suggest to focus on **functionality** and **versatility** not forgetting **innovation in structures** and **materials for home decor**.

# FLOOR TILES

## Self-Adhesive, Bubble Free

The Floor Tiles are an original, young and creative idea to give a new look to the floors of the whole house. You will be able to cover them easily and quickly, without doing expensive masonry work. It takes just a few minutes to give a "second skin" to the ruined and aged floor or parquet, and to transform the environment.

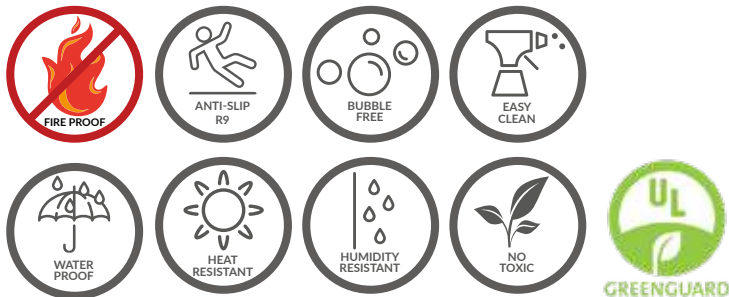

Floor Tiles are adhesive floor coverings made of PVC with a thin anti-slip lamination and a matt finish. Designed for long life, the Floor Tiles - washable and scratch-resistant - are easy to install in just a few minutes, even for the less experienced.

Removal will never be a problem: you can detach the floor stickers without leaving glue residue and without damaging the floor.

# PHOTOMURALS

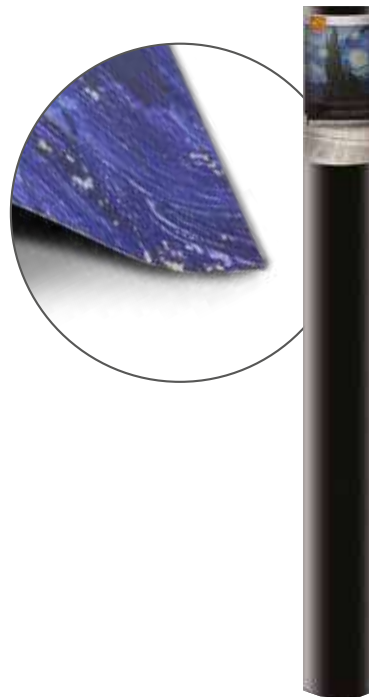

## Self-Adhesive

Photomurals are easy to install even for the less experienced. They apply and come off without the difficulty of regular wallpaper. You will not need to apply any type of glue. Also perfect for bathrooms and kitchens, to be applied on smooth, clean, dry and well plastered or tiled walls, they have a removable and repositionable glue that does not make bubbles.

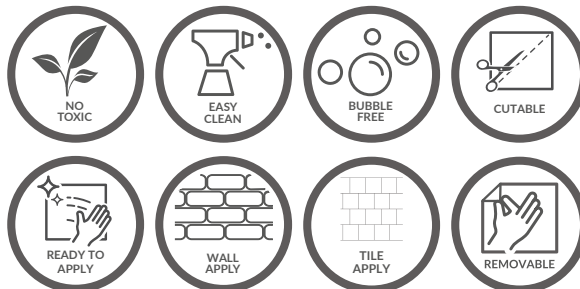

Photomurals are divided into 104 cm wide modular panels, with a 1 cm overlap for an even simpler and more precise application. The material used has an embossed surface, which makes the print perfectly opaque, without light refraction, and pleasant to the touch. It does not shrink, curl, tear or crease in any climate and guarantees a high photographic quality of the image. It is resistant to humidity and washable with non-abrasive detergents.

# WALL BORDERS

Self-Adhesive, Bubble Free

The Decorative Borders can be applied easily, without additional glues, on any smooth and clean surface.

The product has a height of 7.5 cm for a total length of 510 cm divided into three 170 cm pieces for an easy installation.

These special adhesive strips can then be easily trimmed with a cutter or a pair of scissors and adapted to any decorative requirement.

# HEADBOARDS

## Self-Adhesive Vinyl

Vinyl Headboard are really innovative: soft, wipeable, non-toxic, thermal insulating and handy!

Furthermore, Vinyl headboards can be applied using the double-sided adhesive film included in the package: they transform cold wall into a warm comfortable headrest in minutes.

The thickness is 2,2 mm: perfect for absorbing blows and not being invasive.

The Headboards are easy to clean (with a non-aggressive detergent), water-resistant, heat-insulating and are easily removable even after a long time.
