

COVID SIGNAGE

To ensure safety conditions in the workplace, we propose a series of «Anti Covid-19» signs. It is about:

· **Adhesive signs for walls and windows:** Social distancing stickers collection will make our environment safer. These social distancing stickers are great for schools, supermarkets, pharmacies as well as petrol stations. You can use these social distancing stickers in aged care facilities and child care centres. They are essential in medical centres and hospitals.

· **Adhesive signs for floors:** easily applicable (certified anti-slip R9), washable, resistant to trampling and removable without damaging the floors. This social distance floor sticker helps to spread public health information to customers in checkout lines. Create customer awareness and solidarity to create safety measures required for people to follow while queuing or in public spaces. The social distance floor sticker with a strong tack removable backing, allows you to remove the surface sticker at any time without damaging the floor.

Application
